Deck Renovation	\$10,794.12	1	\$10,794.12

DECK FRAME REBUILD – LABOR-ONLY QUOTE

Project: Approximately 12' × 14' Composite Deck with 36" set of Steps
Scope: Removal and reconstruction of existing deck framing

SCOPE OF WORK

1. Existing Deck Frame Demolition

- Remove and dispose of the existing deck framing that is not constructed to proper code or structural standards.
- Remove existing framing as necessary to prepare for the new deck construction.
- Existing materials that can be salvaged will be evaluated and reused only if determined to be structurally suitable.

2. New Deck Footing

- Dig and install one (1) new deck footing as required for the proposed framing.
- Equipment will be brought to the property as necessary to properly excavate the new footing.
- New footing will be constructed to meet applicable structural requirements based on site conditions and the approved deck design.

IMPORTANT: This quote includes one new footing only. If additional existing footings are determined to be inadequate, improperly located, damaged, or not code-compliant and need to be removed, excavated, or replaced, additional labor and equipment charges will apply.

3. New Deck Framing

- Frame a new approximately 12' × 14' deck. One set of steps 36" wide
- Construct framing using proper structural methods and connections.
- Provide proper support, blocking, joist layout, and framing required for the deck design.
- Frame deck to accommodate the client-provided composite decking and railing system.
- Install proper fascia framing and finished-edge details.

4. Ledger Board

- Properly install and flash the deck ledger board to the house.
- Provide appropriate ledger connections and flashing to help prevent water intrusion.
- Existing siding/house conditions that require additional repair, removal, or modification beyond normal ledger installation are excluded and will be addressed as additional work if necessary.

5. Decking Installation

- Install client-provided composite decking.
- Picture-frame the perimeter of the deck using finished-edge boards.
- Install decking with appropriate spacing and fastening according to the decking manufacturer's requirements.
- Provide clean, finished perimeter edges.

6. Stairs

- Frame and install deck stairs as required for the proposed deck.
- Miter stair decking/finished edge boards for a clean, finished appearance.

7. Fascia

- Install client-provided fascia material around the deck perimeter and steps
- Provide properly finished corners and transitions.

8. Railing

- Install client-provided railing system.
- Railing installation will be completed according to the manufacturer's installation requirements and applicable code requirements.

9. Repair Siding after installation that previous contractor damaged needed

LABOR ONLY

This quote is for LABOR ONLY.

Client is responsible for purchasing and paying for all materials required for the project, including but not limited to:

- Lumber and structural framing materials
- Footing/concrete materials

- Ledger hardware and fasteners
- Flashing and waterproofing materials
- Composite decking
- Fascia
- Railing
- Stair materials
- Structural connectors, Nails, Screws, Blades, Bits, Etc.
- Post bases and hardware
- Any additional materials required to meet applicable code requirements

ADDITIONAL WORK / SITE CONDITIONS

This quote is based on the assumption that the existing site conditions are reasonably accessible and that only one additional footing is required.

If additional footings must be removed, excavated, relocated, or replaced, additional labor, equipment, concrete, and related expenses will be charged separately.

Additional charges may also apply for unforeseen structural conditions, concealed damage, inadequate existing foundations, underground obstructions, utility conflicts, house repairs, or modifications required by the local building department or inspector that are outside the scope described above.

CODE & STRUCTURAL DISCLAIMER

The new deck framing will be constructed using standard construction practices and applicable code requirements based on the approved design and site conditions.

Final approval is subject to the requirements of the applicable local building department and inspections. Any engineering, architectural drawings, permits, inspections, or fees required by the local jurisdiction are not included unless specifically stated in the contract.

CUSTOMER ACKNOWLEDGMENT

Customer understands that this is a labor-only proposal and that the customer is responsible for supplying and paying for all materials necessary to complete the project.

Customer further understands that the quoted price includes one new footing and that additional footing replacement or unforeseen site conditions may result in additional charges.

Labor Only
